Achievement Standard 90457 (Biology 2.1)

Carry out a practical biological investigation with supervision

Internally assessed, 3 credits..... 1

Achievement Standard 90769 (Biology 2.2)

Research the interaction between humans and an aspect of biology

Internally assessed, 3 credits..... 5

Achievement Standard 90459 (Biology 2.3)

Describe genetic variation and change

Externally assessed, 3 credits 9

Achievement Standard 90460 (Biology 2.4)

Investigate an interrelationship or pattern in an ecological population or community

Internally assessed, 3 credits..... 31

Achievement Standard 90461 (Biology 2.5)

Describe concepts and processes relating to ecology

Externally assessed, 3 credits 35

Achievement Standard 90462 (Biology 2.6)

Describe diversity in the structure and function of animals

Externally assessed, 3 credits 59

Achievement Standard 90463 (Biology 2.7)

Describe diversity in the structure and function of plants

Externally assessed, 3 credits 77

Achievement Standard 90464 (Biology 2.8)

Describe cell structure and function

Externally assessed, 3 credits 93

Answers and explanations
